

BRING BACK THE LEGS THAT...
will help you **Bowl** your first 300 game

You remember the feeling – that excitement when the ball glided down your lane to deliver the winning strike. But you’ve been avoiding your favorite sport lately because varicose veins make your legs hurt, swell or feel heavy. Even if you’re a solid athlete, you can be incapacitated by venous insufficiency – the medical condition behind varicose and spider veins. Don’t be sidelined by thinking you’re just “getting old” – we can help you get back in the game. We have Board Certified Doctors and vascular surgeons in 16 locations with a single focus: venous insufficiency, the medical condition behind varicose veins and spider veins. Most treatments are quick and are covered by insurance so you can get back to doing the things you love – like bowling your first perfect game. Call us or visit us online to schedule a consultation today. We’ll help you look better, feel better, live better – and love your legs again!
